

## Internet Safety Program - DVD Guide

The Internet Safety Program was created in Microsoft PowerPoint and the video embedded in the PowerPoint Show is formatted as a Windows Media File. You will need these software products installed on your computer to present the program. The program has been divided onto three DVDs:

- Disc #1 - Program Materials
- Disc #2 - The Parent Internet Safety Program
- Disc #3 - The Student Internet Safety Program

### Disc #1 - Program Materials

When this disc is opened on your computer, you will see a single gold file folder marked "Program Materials". You will find the following documents:

- Facilitator Guide (PDF Document)
- Program Scripts
  - Parent Script (PDF Document)
  - Student Script (PDF Document)
- Parent Handouts
  - Computer History (PDF Document)
  - Internet Safety Resources and Tips (PDF Document)
- Student Handouts
  - Student Internet Safety Worksheet (PDF Document)

### Disc #2 - Parent Internet Safety Program

When this disc is opened on your computer, you will see two different icons:

- The first icon is named Hidden Strangers. This is a copy of the video which is embedded into the PowerPoint Presentation. Although this is a great way for you to review the video before making the presentation, you will want to use the video embedded into the PowerPoint Slide Show when presenting the materials to your audience.
  - *The video, "Hidden Strangers", is embedded into the 8<sup>th</sup> slide of the presentation.*

## Internet Safety Program - DVD Guide

- The second icon is named “Parent Internet Safety Presentation-Hidden Strangers.” This is the PowerPoint Presentation to be shown to parents and faculty. The webinar, posted on this page, will walk you through each slide and give you an explanation of how to present the information.

### Disc #3 - Student Internet Safety Program

When this disc is opened on your computer, you will see two different icons:

- The first icon is named “Follow You Home.” This is a copy of the video which is embedded into the PowerPoint Presentation. While, this is a great way for you to review the video before making the presentation, you will want to use the video embedded into the PowerPoint Slide Show when presenting the materials to your audience.
  - *The video, “Follow You Home”, is embedded into the 7<sup>th</sup> slide of the presentation.*
- The second icon is named “Student Safety Presentation-Follow You Home.” This is the PowerPoint Presentation to be shown to students. The webinar, posted on this page, will walk you through each slide and give you an explanation of how to present the information.
