

Other Ways to Give

In-kind support is truly appreciated to support the expansion of our mission. Local businesses and organizations can make a huge impact through donations of in-kind goods and services. By receiving donations such as office supplies, computer equipment, audio/video equipment, graphic design and printing assistance; we are able to create more programs as well as educational awareness in the community. In return, organizations will be recognized for their donations.

A major limiting factor for our awareness campaign projects is budget. We have a lot of ideas, but need help completing them. Businesses can step in to help fill financial gaps through in-kind support. We appreciate any gifts and we are thankful for our partners.

Here are some items we would love help acquiring for our upcoming projects:
